APPENDIX No. 1.

VILLAGES.

2. Reviewing the Appendices in order, I subjoin a table showing in contrast with the year 1875-76 the number of villages in each district for the year 1876-77:—

Districts.	VILLAGES.						NUMBER IN 1876-77.					
	Number in 1876-77.			Number in 1875-76.			Increase.			Decrease.

Total	4,335	590	4,925	4,320	592	4,912	15	...	15	...	2	2

3. The increase of two in Government and corresponding decrease in alienated villages in the Dharwar District is caused by the temporary resumption by Government of the villages of Gamangatté and Begur, pending the settlement of the question of their regrant to Shivaji Tirmal of Misrikot, in accordance with Government Resolution No. 93 dated 8th January 1877.

4. The increase of 13 Government villages in the Kanara District is due to the operations of the Survey Department, certain hamlets having been brought to account as villages during the year.

HAMLETS.

5. It will be seen from the following table that the total number of hamlets has decreased from 3,454 in 1875-76 to 3,447 in 1876-77. The decrease of seven Government hamlets in the Kanara District is explained by the remarks in the preceding para:—

Districts.	HAMLETS.						IN 1876-77.

LAND REVENUE—FINANCIAL RESULTS.

6. Appendix No. 3, which is an abstract of Appendix No. 1, contrasts the financial results of the Land Revenue Settlement of the year under report with those of the year preceding. The subjoined figures show at a glance the increase and decrease under the different headings:—

Works Revenue from Irrigation amounted to Rs. 56,19,658-5-9½ or Rs. 95,382-12-6½ in excess of the revenue for the preceding year. The increase occurs in all the districts, as shown in the margin, and is thus explained by the Collectors:—

10. It will be observed that the greatest increase has taken place in the Dharwar and Kaládgi Districts, owing chiefly to the introduction of revised Survey rates.

11. The amount of pressure which it was found necessary to exercise in order to realize the Government demand can be judged from the large increase of Rs. 10,972 received on account of notice fees. This was owing to the widespread belief entertained by ryots who were able to pay the assessment, that in consequence of the failure of crops in the famine-stricken-districts, extreme measures would not be adopted to compel payment of the Land Revenue.

			Rs.
Belgaum	1,578
Dharwar	7,439

PUBLIC WORKS REVENUE FROM IRRIGATION.

12. The realizations amount to Rs. 3,332-7-7 against Rs. 2,897-6-8 in 1875-76. The increase chiefly occurs in the Dharwar District. In the Belgaum and Kanara Collectorates no revenue is derived from this source.

REMISSIONS.

13. The remissions granted during the year amounted in the aggregate to Rs. 1,47,321-0-6, being more than the previous year by Rs. 24,933-13-10. Of this sum Rs. 15,907-0-7 are owing to the introduction of the revised Survey rates, and are merely nominal entries, and Rs. 1,17,325-7-11 represent the customary deductions from the annual gross revenue of the Kanara District. Deducting these two large sums, the net remissions amount to Rs. 14,088-8-0, of which no less than Rs. 12,969-9-9 were especially granted on account of the failure of crops consequent on the drought which occurred in the year under report, leaving only Rs. 1,118-14-3 due to poverty and desertion of cultivators, injury by accidents, and other causes for which remissions are granted in ordinary years.

COLLECTIONS AND CURRENT YEAR'S BALANCES.

14. The revenue for collection amounted to Rs. 54,72,337-5-3½, which compared with the preceding year shows an increase of Rs. 70,448-14-8½ in favour of the year under report. The causes of this increase have been already explained in the preceding paras. Of the sum of Rs. 54,72,337-5-3½ there were collected by the end of July Rs. 45,18,795-0-½, leaving balance on the 1st August amounting to Rs. 9,53,542-5-3, or Rs. 9,37,752-7-9 more than the sum that remained outstanding on the corresponding date in 1876. In consequence of the failure of the crops and the unfavourable season, the greater portion of this balance was held in abeyance under the orders of Government; but the rain that fell in the autumn enabled the District Officers to proceed with the collections, and the large deficit was brought down to Rs. 8,49,779-13-0 by the end of December 1877, as shown below:—

Districts.			Balance on 1st August 1877.	Since collected.	Balance on 1st January 1878.
			Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	1,18,234 6 5	42,859 11 11	75,374 10 6
Dharwar	72,423 2 3	10,901 7 7	61,521 10 8
Kaládgi	7,48,382 5 3	49,797 7 7	6,98,584 13 8
Kanara	14,502 7 4	203 13 2	* 14,298 10 2
Total	9,53,542 5 3	1,03,762 8 3	8,49,779 13 0

15. The collection of this balance is still in progress; but it is anticipated that at the close of the present year, there will be a certain amount remaining uncollected in parts of the Kaládgi and Belgaum Districts. The balances in Kanara were chiefly due to injunctions from the Civil Courts restraining the collection of the Land Revenue, and their ultimate recovery will depend upon the issue of the appeal in the representative case which has been preferred to Her Majesty's Privy Council.

* At date of the Collector's report, viz., 9th October 1877.

FORMER YEARS' BALANCES.

16. These amounted at the beginning of 1876-77 to Rs. 66,731-9-11, of

which Rs. 3,064-5-3 were collected and adjusted during the year, as shown in the margin, leaving on 31st July 1877 Rs. 63,667-4-8, for the adjustment of which measures are in progress. It will be seen that there

were no balances on account of former years in the Dharwar and Kaladgi Collectorates. The balance outstanding in Kanara is due to the causes already explained.

17. The subjoined table shows the distribution of the entire balances for both current and former years as they stood on 31st July 1877. As mentioned above, the balance for the current year has by subsequent recoveries been reduced to Rs. 8,49,779-13-0, and that for former years to Rs. 63,596-2-5, Rs. 71-2-3 having been collected in Kanara since the close of the year. The total outstanding balance for the entire Division as it stood on 1st January 1878 is Rs. 9,13,375-15-5 :—

TAKAVI.

18. Appendices Nos. 4, 5, 6, and 7 show the particulars of these grants and the purposes for which the advances were made. It will be seen that Rs. 9,485 were granted as ordinary Takavi advances, and Rs. 7,300 under the Land

Improvement Act. The largest advances were given in the Belgaum Collectorate to ryots. No advances were required in the Kanara Collectorate.

19. The collections made during the year relate to the former years' advances, viz. :—

					Rs.
Advances under the Act	1,250
„ ordinary	166
Total					1,416

leaving a balance at the end of the year of Rs. 19,721, of which Rs. 18,599 are not yet due. It has not been found necessary in a single instance to write off an advance as irrecoverable.

CULTIVATION AND CHIEF PRODUCTS.

20. Appendix No. 8—Huzur Form No. 16 G gives in detail the extent of each description of culturable land bearing assessment as compared with the preceding year. The subjoined table, which is an analysis of this form, shows the land under cultivation in 1876-77, as contrasted with that in 1875-76, and the percentage of waste on the culturable area :—

21. The increase of cultivation in Dharwar and Kaládgi is due chiefly to the introduction of revised survey and settlement rates in certain talukas of those districts. The decrease in Belgaum is owing to the resignation of lands by occupants. The figures for Kanara cannot be supplied, as the survey has not yet been introduced into the whole of that district.

22. Huzur Form No. 17 H.—Appendix No. 9 shows the average seed sown and the average yield per acre of each of the principal products in the several districts of the division. It will be seen that the quantity of seed sown per acre under each class varies so much in different talukas, that the returns must still be considered unreliable. The Collectors have been requested to impress upon the Mámlatdárs the necessity of bestowing more care upon the preparation of these parts of the statement; but there are great difficulties in obtaining accurate statistics regarding agriculture.

23. Information regarding twice-cropped land and fallows is added to this statement, as desired in Government Resolution No. 14, dated 2nd January 1878.

SAYER REVENUE—FINANCIAL RESULTS.

24. In Appendices Nos. 10 and 11 will be found the details of the Sayer Revenue of the division contrasted with that for the preceding year. No 12 is an abstract of these appendices, and shows the increase and decrease in each district under the several headings.

25. The gross excise revenue of the year amounts to Rs. 6,17,072-10-0 against Rs. 5,93,767-0-10 in 1875-76, or a net increase of Rs. 23,305-9-2. The fluctuations occur in the items and districts mentioned below :—

				Net Increase .. 23,305 9 2				

26. It will be seen that the large increase in the Belgaum and Kaládgi Districts occurs in the items on account of licenses for manufacture and sale of country liquors, and is due to the competition that took place at the auction sales of the farms. The increase in the other items is trifling and needs no remark.

27. The decrease in Dharwar is attributable to the absence of competition at the auction sales of liquor, ganja, bhang, and other contracts.

28. The amount of Rs. 29,020 realized exclusively from farms for tapping date trees in the Kaládgi District during 1875-76 was apparently included in the fees for licenses for the manufacture and sale of country liquor in Huzur Form No. 181 (A) appended to the Jamabandi Report for that year. It has now been shown in its proper place in Appendix No. 10.

29. The incidence of the Abkari receipts for 1876-77, as contrasted with those for 1875-76, is shown in the following table :—

REMISSIONS.

30. In consequence of the loss of custom sustained owing to the famine, remissions to the extent of Rs. 44,656-4-0 were granted to certain liquor contractors in the Dharwar District under circumstances detailed in the Collector's letter No. 1775, dated 22nd June 1877, submitted to Government with my memorandum No. 1070, dated 6th July following. Applications for remissions from the liquor contractors in the Belgaum and Kaládgi Districts were discouraged, and were generally not entertained.

COLLECTIONS AND BALANCES OF THE CURRENT YEAR.

31. The realizable revenue of the year amounted to Rs. 5,72,416-6-0, being less than that of the year preceding by Rs. 21,331-15-4. Of this Rs. 5,37,217-12-7 were collected by the close of the year, leaving an outstanding balance of Rs. 35,198-9-5 on 1st August 1877. This balance has by subsequent recoveries* been reduced to Rs. 29,315-3-9.

32. The balance for former years appears in Kaládgi alone, and is being recovered by annual instalments, in accordance with Government Resolution No. 4686, dated 31st August 1874.

33. The current and former years' balances are as follows :—

35. Huzur Form No. 21 L.—Appendix No. 14 shows the area of occupied land thrown out of cultivation and waste land taken up. The supplement to this form, Appendix No. 15, gives in detail the causes of increase and decrease in the amount of land under cultivation during the year. The following abstract exhibits the principal items contrasted with those for the previous year :—

36. Appendix No. 16—Huzur Form No. 9 gives the average incidence of Government demand on dry-crop, garden, and rice lands, and of the share of Government demand on alienated lands. The following is an abstract of this statement :—

Collectorates.	Average incidence of Government demand per Acre.				Average incidence of demand on both.
	On Dry-crop lands.	On Garden Lands.	On Rice Lands.	On Alienated Lands.	
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	0 10 2	3 0 2	2 14 6	0 5 3	0 8 9
Dharwar	0 14 10	5 8 2	2 3 0	0 8 8	0 13 7
Kaládgi	0 7 9	1 5 8	1 9 8	0 5 1	0 7 1
Kanara	0 7 5	8 8 10	2 8 6	...	1 12 5

37. The figures against Kanara relate only to the surveyed portion of the district. Dharwar yields the largest average amount per acre, both of dry-crop and garden lands, and Kaládgi the smallest.

38. Huzur Form No. 25 P.—Appendix No. 17 contains the details of land set apart for special and public purposes during the year under report. It will be seen that the largest areas are assigned for forests, cattle pasture, and cattle standing places, and for village sites.

39. Huzur Form No. 26 Q.—Appendix No. 18 shows the extent and number of occupancies, including Inám lands. The number of the smallest and largest holdings, and the average size of each, are given below :—

Districts.	Number of Holdings.		Average size of Occupancies.
	Not exceeding 5 Acres.	Exceeding 1,000 Acres.	
Belgaum	8,984	19	A. g. 25 17
Dharwar	6,763	12	28 34
Kaládgi	2,944	48	36 18
Kanara	15,216	10 10

40. Appendix No. 19 gives the statistics regarding cattle, sheep, goats, &c. The large decrease in the number of live stock during the present year in all the districts, except Kanara, shows that the drought must have killed many of the animals belonging to the agriculturists. The increase in Kanara is most probably the result of so many animals having been driven to the jungles of that district for pasturage during the famine.

41. Huzur Form No. 20 K.—Contrasted Statement of the Allowances of Village and District Hereditary Officers—will be submitted hereafter, certain information called for from the Collectors not having been received.
